

HOME WING

Newsletter of the Home Wing of Van's Air Force — Builders and Fliers of Van's RV Series Aircraft

RV-8 UNDER CONSTRUCTION and located at Sunset Air Park is Ray Fogg's airplane in gestation. The September meeting brought out about 40 Home Wing-ers and guests including test pilot and author Chuck Berthe. Berthe was in town to run a series of flight tests of the RV-10 factory demonstrator for an article just published in Kit Planes magazine.

This Month...

- ***Home Wing Membership Directory***
- ***Hillsboro Air Show***
- ***Progress and Projects***

Events Calendar

Meeting coordinator:

Randall Henderson

503-297-5045

randallh@attbi.com

Project: **Amit Dagan's RV-7**
Address: **2975 SW Underwood Dr.**
Date: **Thursday, October 9, 2003**
Time: **7:00 pm**
Phone: **503-292-9780**

The October meeting will be at Amit and Gail Dagan's house. Amit is well along on the finish kit stage of his RV-7. Amit is also our toolmeister so this is a good chance to find out more about our tool collection.

Directions

From highway 217 take the Walker Road exit, and turn east on Walker. The third left on Walker is Underwood Drive (a no-outlet street) - if you get to Canyon Road you've gone too far. Amit's house is 2nd from the end, on the left side.

From Canyon road (hwy 8), take Walker road, turn right on Underwood (third street up from Canyon on your right). Amit's house is 2nd from the end, on the left side.

Future Meetings

- [November -- Steve Householder RV-6 HIO](#)
- [December -- TBD](#)
- [January -- TBD](#)

Want to host a meeting? Contact the meeting coordinator by going to the Vans Air Force Home Wing web site and clicking on Meetings:

EAA CHAPTER 105 Pancake Breakfast:

Learn to eat grits on the first Saturday of every month at Twin Oaks Airpark, 8:00 am, \$5.00 (usually lot's of RVs to look at, too!)

Next Breakfast (November): 11/1/2003

EAA CHAPTER 105 Monthly Meeting:

Third Thursday of every month at the EAA 105 hangar/clubhouse, Twin Oaks Airpark, 7:00 pm. www.eaa105.org for details

This month: 10/16/2003

EAA CHAPTER 782 Monthly Meeting:

Fourth Tuesday of every month at 7:00 pm. The October workshop/meeting is at Grove Field. Scott Devlin will be hosting a fiberglass session.

This month: 10/22/2003

EAA CHAPTER 902 Monthly Meeting:

Second Wednesday of every month at Mulino Airpark 7:00 pm

This month: 10/8/2003

E.I.C. *(this month)*

-- Mike McGee

Okay, we're (I'm) waay behind schedule here. You might have noticed that the calendar lists the "Next Breakfast" not "This Month". Kevin and I are still trying to get used to the idea of working again. Having a job really shoots the day. Diana's RV-9A has really taken a hit in the progress department. The left wing spar is still in the jig waiting for ribs. At least the rear spars are assembled even though I racked up another mulligan in the process. We did manage to get about 1/3 of the ribs deburred while setting with the RV-4 at the Hillsboro Airshow.

It has been a great summer for flying. The weather has prompted a few long distance outings and spawned a few flying stories for the record. Now it's time to settle in to building season, that time of year when the tail is in the cloud and you're still setting on the ground. And to all of you out there in sunnier climes, yes, I am writing to you from the great Pacific Northwet.

Congratulations go out this month to a newly licensed Private Pilot. Eileen VanGrunsvan passed her check-ride recently. She hasn't graduated to the family RV-6A quite yet, but, now has that infamous License-to-Learn that so many of us love and cherish. Practice, practice, practice. By the way, when you new guys go to take your check-ride try to pick a sunny day. Can you say 3-hour-oral exam?? Whew!

This month we will slide back into some building stories. Coincidentally, included in this issue is the current roster for the Home Wing, your own personal directory of those with the same habit of turning aluminum in to a flying machine. Use it wisely.

Blue skies,,,

mgm

Bob Haan - shares his tips from Home Depot.

Your picture here!! (maybe even with Vance's friend)

What have you got for us next month?

HILLSBORO INTERNATIONAL AIR SHOW AND THE LONE RV

It was a dark and stormy night...

..actually it was a beautiful day, perfect for an air show and not too chilly for the night event. Diana and I got ambitious and thought we would join the rest of the local RV crowd and put ourselves on display to help support the newly reconstituted Hillsboro Air Show. We saddled up with our freshly washed RV-4, a poster board of one of our travels to show off, a bag of trail mix and a box full of RV-9A wing ribs that had been waiting to be deburred for too long, and taxied in from the north-east tee hangers.

Yep, that's the ticket, when your social schedule is threatening the progress of your project—simply combine the two. We got to talk to a lot of people about the plane, where we had been and what we were doing with all those ribs. It was amazing the traffic we had, including turning around at one point and telling that sub-teenage kid to please get out of my plane and you shouldn't be doing that

without the owners permission. His mother was embarrassed.

Diana and I had a front row seat for both shows, afternoon and evening. A couple of plates of air show food topped off with another plate of strawberry funnel cake (*Jenny Craig wasn't working that day*) made for a relaxing day in the sun.

It did seem strange though, as if we had awakened on another planet. *"Oh Miss! Excuse me, where am I?"* *"You're at the Hillsboro airport silly. Don't you see all the planes? You didn't fly in did you??"* *"Yes, er, no, but, where are all the RV's?"* *"There's one"*

"One?" Yes folks, one RV, who didn't even fly in, representing the Mecca of RVdom on the home turf. Tsk, tsk, tsk.

The night show was great. Love that pyro stuff! Thanks to Van, Jerry, and Judy for keeping us company. Jerry I'm still thinking about that L39 club.

mgm

Progress & Projects

Wings on!

Rion Borgeois's RV-4 has wings. Of course they'll be back off at least once more but it's a step in that direction.

A new tool in the shed..

Robin Wesel has put together an antenna tuning kit for the Home Wing tool crib. The kit is complete with VSWR meter and instructions on how to use it. This will help you tune your radio to your antenna installation for maximum performance from your transmitter.

Dynon Dilemma

Man, these things are selling faster than ice water in ..well, you know where. A number of local builders and flyers are installing them in their panels. I'm thinking I could have one of the smallest RV-4 VFR panels in the fleet. A Dynon EFIS, an ACS engine monitor, my IPAQ Mountainscope for navigation, and the old MX-11 & KT-76.

New Panel

Walt Foster picked up his new IFR panel from Pacific Avionics. It's already mounted in his 6A-QB. Even though the panel work took about three months longer than quoted it's a very professional looking panel complete with non-reflective powder coat. Traditional gyros, S-Tec two axis AP, UPS nav-com and GPS-com, King moving map and topped off with Rob Hickman's ACS engine monitor.

Home Wing - Van's Air Force

The old and the new

Jerry Springer picked up some ramp rash on his RV-6 during Van's Homecoming. Enough that he has built a new VS and rudder (ala RV-9) for his plane. It only took him a week from start to first flight. We'll try to keep you posted on the flight test results.

Almost ready to roll

Joe Miller and crew have lit the fire in Joe and Char's RV-9A. Mike Robertson was at the controls when the Aerosport Power IO-320 with a Whirlwind 3 blade prop came to life. With the wings still not on the plane the engine was only run up to 1100 rpm, not enough to even cycle the prop. It's getting closer to the time that they will be seeing blue sky under those wings.

RV-4 Battery swap & baggage capacity

My old Concord 25 finally gave it up after 6 years. Just the opportunity (excuse) I've been looking for to rearrange the front compartment into something useful. One of the new Odyssey PC 680 batteries will just barely fit on the firewall, thus putting the battery in the engine compartment. Now the tunnel can be used for the high density items like the tool bag, quart of oil, tie-downs, etc.

Home Wing Directory 2003/2004

Information from the Home Wing database as of 10/02/03. Please check your entry. Are you affiliated with an EAA Chapter? Send any corrections to randy@rv-8.com.

The Tool Crib

Being a current Home Wing entitles you to access the group's tools, a major benefit. The Home Wing owns a growing selection of those expensive and seldom-used tools that are very nice to have access to. This program is managed by The Toolmeister: **Amit Dagan (503) 292-9780** amitdagan@hotmail.com Please help protect the group's assets, observe our Tool Policy:

- Everything goes through Amit — do not give the tool to another member.
- Amit will keep an accurate sign-out sheet for each item so he knows where it is at all times.
- Amit will inspect all tools upon their return. If there is any damage he will ask you to pay for the repair . More Tool Crib rules can be found at the Home Wing website

EAA Technical Counselors & Flight Advisers

- **Jerry Darrah** 503-254-9992 (EAA Ch. 902, A&P, Glastar builder, Portland-Troutdale area)

EAA Flight Advisor

Dave Lewis, Sr. 503-690-8237 (EA Ch. 105, multiple RV builder, Hillsboro-Portland area)

Subscription Due Dates

Mail subscribers: Your renewal date is in the upper right corner of your mailing label. Use the form at the back of this newsletter if there are any changes, otherwise just mail a check to the editor, or pay at a meeting.

E-mail subscribers: Look for your name and renewal date in the e-mail that the newsletter is attached to.

All subscription data is tracked in an Access database. Data entry errors can happen - if you find an error in your renewal date please contact the **Randy Lervold**.

IMPORTANT: *The Van's Air Force Home Wing newsletter is in no way a publication of Van's Aircraft or any other corporation. All products reviewed or mentioned are not necessarily recommended for use by the Home Wing, but are included for informational purposes only. All building or flying tips represented only the means by which the builder whose name is associated with the tip chose to build or fly his/her aircraft. Builder's tips are not meant to replace the plans and instructions from Van's Aircraft. All information is presented only as a source of information, and this newsletter is a forum for exchange and the sharing of ideas and construction methods only. NO responsibility or liability is assumed, expressed, or implied as to the suitability, accuracy, safety or approval thereof. Any party using the suggestions, ideas, or examples does so at their own risk and discretion and without recourse against anyone. The editor of the Home Wing newsletter and the builder's tips submitters are not responsible for any product, incorrect construction, design failure, unsafe aircraft operation practice, nor any other peril. Any material printed within may not be reprinted without specific permission, and then should include credit to the original source and author. The Home Wing newsletter is published more or less monthly. Subscriptions are \$10/year. Complimentary issue for new builders upon request. Mail or e-mail all subscriptions, ideas, tips, tricks, and articles to the newsletter editor.*
